AND
WASHINGTON STATE DEPARTMENT OF ENTERPRISE SERVICES

Pursuant to RCW chapter 39.34 and RCW chapter 39.35C, this *Interagency Agreement (Agreement)* is made and entered into by and between the State of Washington acting by and through the Energy Program of the Department of Enterprise Services, a Washington State governmental agency (“Enterprise Services”) and PUD No. 2 of Grant County, WA, a Washington State governmental agency (“Client Agency”) and is dated and effective as of the date of the last signature.

RECITALS

- A. Enterprise Services, through its Energy Program (“Energy Program”), helps owners of public facilities reduce energy and operational costs. The Energy Program is a national leader in developing and managing energy savings performance contracts that help reduce energy and operational costs in publicly-owned facilities.
- B. Upgrading to energy efficient infrastructure helps reduce long-term operations and maintenance costs. This allows owners to be better financial stewards while achieving their mission, so that Washington is a better place to live, learn, and work.
- C. Acting as the owner’s advocate, the Energy Program delivers professional expertise and contract management services. By leveraging capital investments, owners can achieve efficiencies, improve facilities, and reduce carbon emissions in their publicly-owned facilities. Energy Program also creates value to owners by managing risk through guaranteed total project costs, equipment performance, and energy savings.
- D. Client Agency, an owner of a public facility, desires to contract with Energy Program to access and obtain certain Energy Program Services.

- E. The purpose of this *Agreement* is to establish a vehicle for Energy Program to provide future energy/utility conservation project management services to Client Agency and to authorize the development of the energy services proposal in a cost-effective, efficient manner.
