

RATE SCHEDULE NO. 19
Fast Charging Electric Vehicle Service

Rates shown on this Rate Schedule are set by the Grant PUD Commission and are subject to change at the discretion of the Commission.

AVAILABLE: To eligible retail accounts served by Grant PUD for facilities dedicated for direct current electric vehicle charging. Rate is only available to Level 3 (or above) fast charging stations with monthly loads of no more than 3,000 kW Billing Demand at an individual location. Service can be offered for commercial use, for example, for fleet vehicles and/or public charging stations or domestic use. Other electric usage at the same location shall be metered and billed at the otherwise applicable rate for the corresponding retail account. However, if any part of the load is determined to be used for a Level 3 direct current electric vehicle charging, and the load cannot be separately metered, all loads measured by that account’s meter will be aggregated and billed under this rate schedule. This is also including but not limited to any usage from a Level 1 and/or Level 2 electric vehicle charging station sharing a meter with a Level 3 charging station.

EFFECTIVE: With meter readings after April 1, 2026.

SERVICES RECEIVED: Service under this schedule requires a 3-phase 480-volt or greater voltage service as determined by Grant PUD. Multiple service agreements for electric vehicle charging at an individual location are not allowed under this rate schedule.

MONTHLY BILLING RATE: Customer’s monthly billing will consist of the following charges:

Basic Charge	\$54.30 per month
PRP Energy Charge	\$0.02548 per kWh
Incremental Energy Charge	\$0.00260 per kWh
Temporary Stabilization	\$0.00200 per kWh
Demand Charge	\$9.95 per kW of Billing Demand
Minimum Charge	\$461.87 per month

BILLING DEMAND: The Billing Demand under this schedule shall be the larger of the following demand factors:

- (a) The contract demand, if any.
- (b) The highest 15-minute demand during the billing period as determined by demand meter. Metered demand will be adjusted up to 95 percent power factor on accounts having reactive meters.
- (c) A minimum of 50 kW

TAX ADJUSTMENT: The amounts of any tax levied by any city or town, in accordance with RCW 54.28.070 of the Laws of the State of Washington, will be added to the above charges.

SERVICE: Subject to terms and conditions of the District's Customer Service Policies, as periodically amended.
