

## Interconnection Request Checklist

All applications and supporting documentation must be uploaded through Grant PUD's Secure File Transfer Protocol (SFTP) site. Please request access to the site as directed on the [Cluster Study webpage](#).

### 1. Application & Deposits - Sections 3.1 & 3.4.2 of Large Generator Interconnection Procedures (LGIP)

Ensure all required deposits are received by Grant PUD before closure of the Customer Study Window.

| Requirement                                             | Completed                |
|---------------------------------------------------------|--------------------------|
| Interconnection Request submitted for each project site | <input type="checkbox"/> |
| \$5,000 Non-refundable Application Fee submitted        | <input type="checkbox"/> |
| Invoiced Study Deposit submitted                        | <input type="checkbox"/> |
| Commercial Readiness Deposit or Security Posted         | <input type="checkbox"/> |
| Interconnection Service Type selected (ERIS or NRIS)    | <input type="checkbox"/> |

### 2. Site Control Requirements - Section 1 & Section 3.4.2 (iii) of LGIP

In accordance with the LGIP sections referenced, please provide documentation of 90% Site Control or note in your application that Site Control will be provided later in the process. If provided later, Grant PUD will invoice for the deposit in lieu of 90% Site Control. This amount must be received prior to the closure of the Cluster Request Window.

| Requirement                                                            | Completed                |
|------------------------------------------------------------------------|--------------------------|
| Documentation demonstrating at least 90% Site Control provided         | <input type="checkbox"/> |
| Security posting submitted in lieu of 90% Site Control (if applicable) | <input type="checkbox"/> |

### 3. Project Information - Section 3.4.2 (iv)(v) of LGIP

Provide complete project information to support technical review and study activities.

| Requirement                                        | Completed                |
|----------------------------------------------------|--------------------------|
| Generating Facility Capacity (MW) identified       | <input type="checkbox"/> |
| Requested interconnection Service Level identified | <input type="checkbox"/> |
| Point of Interconnection identified                | <input type="checkbox"/> |
| Storage charging behavior provided*                | <input type="checkbox"/> |
| Operational controls description provided*         | <input type="checkbox"/> |
| Surplus Interconnection Service Request included*  | <input type="checkbox"/> |

\* If applicable for your project

#### 4. Required Technical Documents - Section 3.4.2 (ii)(v) of LGIP

Upload all required applicable technical documents to the SFTP site provided. See [Grant PUD Interconnection Data Requirements and Validation](#) document for additional guidance.

| Requirement                       | Completed                |
|-----------------------------------|--------------------------|
| Single Line Diagram               | <input type="checkbox"/> |
| Physical Drawings                 | <input type="checkbox"/> |
| Location Maps                     | <input type="checkbox"/> |
| Road Access Maps                  | <input type="checkbox"/> |
| Transmission Routing Information  | <input type="checkbox"/> |
| Resource/ Load Description        | <input type="checkbox"/> |
| Transformer Equipment Information | <input type="checkbox"/> |

#### 5. Conditional Documents

Submit the corresponding attachment that supports the generation technology applicable to your project. Revenue Telemetry Information and Environmental Reviews may be submitted if available.

| Requirement                                          | Completed                |
|------------------------------------------------------|--------------------------|
| Revenue Telemetry Information *                      | <input type="checkbox"/> |
| Environmental Reviews *                              | <input type="checkbox"/> |
| Attachment A – Solar/BESS Technical Information      | <input type="checkbox"/> |
| Attachment B – Non-Solar Technical Information       | <input type="checkbox"/> |
| Attachment C – Non-Synchronous Generator Information | <input type="checkbox"/> |

\* If available and applicable for your project

#### 6. Study Models & Data

Submit these study models and supporting data that are applicable to your project in accordance with the Grant PUD Interconnection Data Requirements document.

| Requirement                       | Completed                |
|-----------------------------------|--------------------------|
| Network Model (positive sequence) | <input type="checkbox"/> |
| Dynamic Data (positive sequence)  | <input type="checkbox"/> |
| Dynamic Model (3-phase EMT)       | <input type="checkbox"/> |
| Short Circuit                     | <input type="checkbox"/> |

#### 7. Final Submission Check

- ✓ All required deposits submitted
- ✓ All required documents uploaded
- ✓ Applicable study models uploaded
- ✓ Site Control Documentation provided
- ✓ Submission package ready for review

For questions regarding Interconnection Requests,  
please email Transmission Business Services.
